and cementing chemicals

Oil Based Mud Anti-Collapsing Plugging Filtration Control Agent KOL-PLUG OBM

PROPERTY

Oil Based Mud Anti-Collapsing Plugging Filtration Control Agent FTD-5 is the specialty made from modified natural asphalt. It is lipophilic, but slight soluble in diesel, and is effective when plugging fractures and reducing filtration loss. It is heat resistant to the high temperature of 150°C~200°C, and will not affect the rheology and emulsion-breaking voltage of drilling mud.

TECHNICAL DATA

Items		Indexes
Appearance		Dark brown powder
Moisture,%		≤15.0
Screen size (remains when passing 80 meshes) %		≤15.0
Yield point, % (49°C±1°C)		80-140
After rolling	Yield point, %	75.0-150
	Plastic viscosity, %	≤200.0
	HTHP FL changing rate, %	≤50.0

Recommended dosage: 1%~2%.

PACKAGE & STORAGE

Packaging and transport in sacked with three package, 25Kg/sack or Ton Jumbo Bags. Kept away from fire, damage and leakage in store and transportation. Storage life is two years.
